## VitalSource Bookshelf

eBooks are accessed using VitalSource Bookshelf.

Bookshelf enables students to access eBooks online through a browser or they can be downloaded to a laptop or mobile devices using the Bookshelf application or mobile app (for up-to-date versions of iOS, Android and Amazon Kindle Fire).

A Bookshelf eBook can be accessed on up to 4 authorised devices (2 laptops / PCs + 2 mobile devices, for example a work computer, a personal computer, a mobile phone and an iPad).

If using a company computer or device, students need to check they have permission to install the required application.

When printing from Bookshelf an automatic watermark will be added to every page. This cannot be removed as it is part of the software settings. The software will only let you print 100 pages each time you log into your account. The print quality is unlikely to be as high as a printed hard copy from IAI.

If students have any technical difficulties members should follow the help and support issued by Vital Source (outlined in the eBook redemption instructions). The IAI should not be held responsible for any technical issues experience by the members.
